Blue Cross and Blue Shield of Illinois Drug Formulary

BlueCross BlueShield
of Illinois

ALPHABETICAL DRUG LIST

Blue Cross and Blue Shield of Illinois members are requested to talk to their physicians about prescribing medications included on the Drug List.

This document reflects the Blue Cross and Blue Shield of Illinois Drug Formulary as of July 1, 2007. The Drug List is updated quarterly. Please visit www.bcbsil.com for recent updates.

To search for a drug name within this PDF document, use the **Control** and **F** keys on your keyboard, or go to **Edit** in the drop-down menu and select **Find/Search**. Type in the word or phrase you are looking for and click on **Search**.

FORMULARY AS A REFERENCE

Blue Cross and Blue Shield of Illinois (BCBSIL) is pleased to provide the 2007 prescription drug formulary as a reference and informational tool. The formulary is a list of preferred drugs selected by BCBSIL based upon the clinical recommendations of the Prime Therapeutics Pharmacy and Therapeutics (P&T) Committee. Prime Therapeutics provides pharmacy benefit management services for BCBSIL. The P&T Committee regularly reviews brand and generic medications by evaluating their comparative efficacy, safety, uniqueness and cost-effectiveness with evidence supported by published studies.

The formulary is organized in sections. Each section includes therapeutic groups identified by either a drug class or medical condition. This formulary is not inclusive of all generic drug products, which are included on the formulary; however, all formulary brand drugs are listed.

With a few exceptions, coverage for all drugs is limited to a 34-day supply. Members may purchase up to a 90-day supply of maintenance medications based on their benefit plan. Certain drugs have coverage limitations based on age, gender, duration or dosage. Drugs with dispensing limits are listed on pages 4-6 of this formulary. In addition, some drugs require prior authorization and for some plans prescription drugs that are available in an over-the-counter version may not be covered. Members should refer to their benefit plan booklet for details of prescription drug benefits.

PHARMACY AND THERAPEUTICS (P&T) COMMITTEE

The Prime Therapeutics P&T Committee is comprised of members from throughout the country who hold a medical or pharmacy degree. The committee includes a voting member who is an employee of BCBSIL and a non-voting member who is employed by Prime Therapeutics.

PRODUCT SELECTION CRITERIA

The P&T Committee considers drugs recently approved by the U.S. Food and Drug Administration (FDA) for inclusion on the formulary. The evaluation includes a literature review and, at times, opinions from experts not on the P&T Committee. Safety, efficacy, comparisons with drugs currently on the formulary and cost are some of the committee's considerations in evaluating a drug.

When a new drug is considered for inclusion on the formulary, it is reviewed relative to similar drugs currently on the formulary. In addition, entire therapeutic classes are periodically reviewed.

ADVANTAGES OF USING THE FORMULARY

It is advantageous for BCBSIL members to use formulary drugs as they usually will have a lower payment amount. The formulary includes both generic and brand drugs that provide effective, safe and clinically appropriate drug therapies. Benefits are also provided for most drugs that are not included on the formulary, but a higher payment amount may apply.

The formulary is provided as a reference for drug therapy selection. Physicians are encouraged to consider prescribing generic or formulary brand drugs to provide effective and less costly medication options for their patients.

As always, members should discuss any questions and concerns about medications they are taking with their physician. Only a member's physician can determine whether a formulary medication is right for them. It is the sole responsibility of the prescriber to select the appropriate medication.

FORMULARY PRODUCT DESCRIPTIONS – HOW TO USE THIS GUIDE

Generic drugs are shown in lowercase boldface type. They are followed by the brand drug (in parentheses) to assist in product recognition. Brand drugs with generics available are usually non-formulary (NF), and therefore are not listed.

Example: **ibuprofen** (Motrin)

Brand drugs are noted in all capital letters, followed by the generic name.

Example: COREG – carvedilol

The following examples are given to assist the provider regarding specific strengths and dosage forms on the formulary. These examples can then be used for other drugs on the formulary. Any exceptions are noted in the drug list and some lists contain additional information about specific products or dosage forms. **The brand names in parentheses are shown for reference purposes only and such brands are not normally on the formulary.**

- **Products on the formulary generally include all strengths and dosage forms of the cited brand product.**

estradiol tabs (Estrace)

Estrace tabs are available as 0.5, 1, and 2 mg. Generic estradiol of these strengths is on the formulary. A brand only version of 1.5 mg estradiol is not covered by this entry.

- **Modified-release or combination products on the formulary are defined by the cited brand product.**

verapamil ext-release (Calan SR)

Only generic versions of Calan SR are on the formulary based upon the entry. Products based upon brand references of other verapamil extended-release products, e.g., Covera HS, are not included on the formulary unless they are also listed.

- **Extended-release and delayed-release products require their own entry.**

bupropion (Wellbutrin)

The long-acting product Wellbutrin XL is not on the formulary based upon the bupropion entry.

DEPAKOTE ER – divalproex ext-release

This entry confirms that the brand extended-release product is on the formulary.

- **Dosage forms on the formulary will be consistent with the category and use where listed.**

neomycin/polymyxin B/hydrocortisone (Cortisporin)

As listed in the EAR section, this drug is limited to the otic solution and suspension. From this entry the ophthalmic suspension and the topical cream cannot be assumed to be on the formulary unless there are entries for these products in the EYE and SKIN CONDITIONS/PRODUCTS sections of the formulary.

- **Individual formulary entries are required for specific formulations including oral immediate-release, extended-release, delayed-release, rectal, injectable, otic, ophthalmic, vaginal, nasal, orally disintegrating tablets, transdermal and topical. Oral liquids for products cited as immediate-release or delayed-release (enteric-coated) oral solids are on the formulary, unless noted.**

sulfamethoxazole/trimethoprim (Septra)

In addition to the generic tablets, the generic oral suspension is on the formulary.

MAXALT – rizatriptan

The tablets are on the formulary. A separate entry for MAXALT-MLT must be listed for the orally disintegrating tablets to be on the formulary.

- **When a strength or dosage form is specified, only the product identified and the liquid formulation (if available) is on the formulary. Other strengths/dosage forms of the reference product are not on the formulary.**

ribavirin caps (Rebetol)

The generic capsules are on the formulary. Rebetol oral solution is not available generically and would require a separate entry to be on the formulary.

metronidazole tabs (Flagyl)

Only generic tablets are listed on the formulary, not the capsules.

GENERIC SUBSTITUTION

Generic drugs are recognized as being as safe and effective as brand medications. Physicians and members can expect the same clinical results with a generic drug as with its brand counterpart, but usually at a lower cost. The manufacturer of a generic drug does not have to recover the costs of research and development for the drug. Therefore, a generic drug typically costs substantially less than its brand equivalent. As a result, the member usually has a lower cost.

Compared to their brand counterparts, all FDA-approved generic drugs must:

- contain the same active ingredients
- have the same strength and dosage form
- be therapeutically equivalent.

BCBSIL does not determine the brand or generic status of medications. A nationally recognized provider of drug product information determines whether a drug is classified as a generic or brand drug. Typically, for a product to have a generic indicator a second manufacturer is required. Generics are often available from multiple sources.

The FDA must review and approve generic drugs before they are made available to the public. Plus, generic drugs must have the same active ingredients as their comparable brand drugs, which have years of testing and clinical research behind them. As always, members should discuss questions or concerns about medications they are taking with their physician. Treatment decisions rest solely with the member and their physician.

When a doctor does not write a prescription for a generic drug, the member should consider asking if an appropriate generic is available. At the pharmacy, members can request that generic drugs be dispensed for them whenever possible.

DISPENSING LIMITS

In accordance with generally accepted pharmaceutical guidelines and manufacturers' packaging, there are dispensing limitations on the medications listed below. This list is subject to change. For the most current and complete information on prescription drug benefits, members should call the customer service number on the back of their ID card or visit our Web site at www.bcbsil.com and log on to BAM.

BRAND NAME (GENERIC NAME)	DOSAGE FORM	FORMULARY	DISPENSING LIMIT
Accuneb (albuterol sulfate)	neb soln	Yes, generic; No, brand	4 packages (300 mL)/Rx
Advair Diskus (salmeterol/fluticasone)	inhaler	Yes	1 package (60 doses)/Rx
Advair HFA (salmeterol/fluticasone)	inhaler	Yes	1 inhaler/Rx
Aerobid, Aerobid M (flunisolide)	inhaler	No	3 inhalers/Rx
albuterol	inhaler	Yes, generic	2 inhalers/Rx
albuterol sulfate 0.5%	neb soln	Yes, generic	3 packages (60 mL)/Rx
Alupent (metaproterenol)	inhaler	No	2 inhalers/Rx
Ambien (zolpidem)	tabs	Yes, generic; No, brand	1 tablet/day
Amerge (naratriptan)	tabs	No	9 tabs/Rx
Anzemet (dolesetron)	tabs	No	3 tabs/Rx
Asmanex (mometasone furoate)	inhaler	No	2 inhalers/Rx
Astelin (azelastine)	nasal	Yes	2 inhalers (60 mL)/Rx
Atrovent (ipratropium)	nasal	Yes, generic; No, brand	2 inhalers/Rx
Atrovent HFA (ipratropium)	inhaler	Yes	2 inhalers/Rx
Axert 6.25 mg (almotriptan)	tabs	No	6 tabs/Rx
Axert 12.5 mg (almotriptan)	tabs	No	12 tabs/Rx
Azmacort (triamcinolone acetonide)	inhaler	No	2 inhalers/Rx
Beconase AQ (beclomethasone dipropionate)	nasal	No	1 inhaler/Rx
Biaxin XL (clarithromycin ext-release)	tabs	Yes, generic; No, brand	28 tabs/Rx
Bravelle (urofollitropin)	inj	No	60 vials/Rx
butorphanol	nasal	Yes, generic	2 bottles/30 days
Cetrotide (ganirelix acetate for inj)	inj	No	20 kits/Rx
chorionic gonadotropin	inj	Yes, generic	20 mL/Rx
Cialis (tadalafil)	tabs	No	8 tabs/30 days, males only
Cipro XR 1000 mg (ciprofloxacin ext-release)	tabs	Yes, generic; No, brand	14 tabs/Rx
Cipro XR 500 mg (ciprofloxacin ext-release)	tabs	Yes, generic; No, brand	3 tabs/Rx
Clomid (clomiphene)	tabs	Yes, generic; No, brand	10 tabs/Rx
Combivent (albuterol sulfate/ipratropium)	inhaler	Yes	2 inhalers/Rx
Crinone 8% (progesterone)	vaginal gel	Yes	60 applicators/Rx
Differin (adapalene)	crm, gel, pads, soln	Yes	Under age 40
Duoneb (albuterol sulfate/ipratropium)	neb soln	Yes	120 vials (360 mL)/Rx
Exubera (insulin human [rDNA origin])	product blister pack	No	3 units x 270 = 810/30 days
Exubera (insulin human [rDNA origin])	release unit	No	2/30 days
Exubera (insulin human [rDNA origin])	chamber/combo kit	No	2 per year
Fertinex (urofollitropin)	inj	No	60 vials/Rx
Flonase (fluticasone)	nasal	Yes, generic; No, brand	1 inhaler/Rx
Flovent HFA (fluticasone)	inhaler	Yes	2 inhalers/Rx

BRAND NAME (GENERIC NAME)	DOSAGE FORM	FORMULARY	DISPENSING LIMIT
Follistim AQ (follitropin beta)	inj	Yes, 300, 600, 900 units	20 cartridges/Rx
Foradil Aerolizer (formoterol)	inhaler	Yes	1 package (60 doses)/Rx
Forteo (teriparatide)	inj	Yes	1 syringe/30 days
Fosamax 35 mg & 70 mg (alendronate)	tabs	Yes	8 tabs/30 days
Fosamax Plus D (alendronate/cholecalciferol)	tabs	No	8 tabs/30 days
Frova (frovatriptan)	tabs	No	9 tabs/Rx
Ganirelix Acetate	inj	Yes	20 syringes (0.5 mL/syringe)/Rx
Gonal-F (follitropin alfa)	inj	Yes	60 vials/Rx
Gonal-F (follitropin alfa)	inj	Yes	10 kits/Rx
Imitrex (sumatriptan)	nasal	Yes	6 spray unit devices/Rx
Imitrex (sumatriptan)	inj	Yes	5 kits/Rx
Imitrex (sumatriptan)	vial	Yes	5 vials/Rx
Imitrex (sumatriptan)	tabs	Yes	9 tabs/Rx
Insulins (All)	vials and pens	Yes , all except Relion	100 mL/34 days
Insulin syringes and pen needles (All)		Yes , BD only	300 units/34 days
Intal (cromolyn sodium)	inhaler	Yes	1 inhaler/Rx
Intal (cromolyn sodium)	neb soln	Yes, generic; No, brand	1 package (240 mL)/Rx
ipratropium	neb soln	Yes, generic	4 packages (252 mL)/Rx
ketorolac	tabs	Yes, generic	20 tabs/Rx, one refill allowed, additional tabs require new Rx
Kytril (granisetron)	tabs	No	6 tabs/Rx
Kytril (granisetron)	oral soln	No	1 bottle (30 mL)/Rx
Levitra (vardenafil)	tabs	No	8 tabs/30 days, males only
Lovenox (enoxaparin)	inj	Yes	10 syringes or vials/30 days
Lunesta (eszopiclone)	tabs	No	1 tablet/day
Luveris (lutropin alfa)	inj	No	14 vials/Rx
Marinol (dronabinol)	caps	No	60 caps/Rx
Maxair Autohaler (pirbuterol)	inhaler	No	2 inhalers/Rx
Maxalt/Maxalt-MLT (rizatriptan)	tabs	Yes	9 tabs/Rx
metaproterenol 0.4/0.6%	neb soln	Yes, generic	4 packages (252 mL)/Rx
Migranal (dihydroergotamine)	nasal	Yes	8 ampules/Rx
Nasacort AQ (triamcinolone acetonide)	nasal	Yes	1 inhaler/Rx
Nasarel (flunisolide)	nasal	No	1 inhaler/Rx
Nasonex (mometasone)	nasal	Yes	1 inhaler/Rx
Ondansetron	tabs, 24 mg	No	1 tab/Rx
Ovidrel (choriogonadotropin)	inj	No	2 syringes (1 mL)/Rx
Ovidrel (choriogonadotropin)	inj	No	2 vials (1 mL)/Rx
Plan B (levonorgestrel)	tabs	Yes	Covered for females age 17 yrs and under with Rx
Proair HFA (albuterol sulfate)	inhaler	Yes	2 inhalers/Rx
Prochieve 8% (progesterone)	vaginal gel	No	60 applicators/Rx
Proventil (albuterol sulfate 0.083%)	neb soln	Yes, generic; No, brand	4 packages (300 mL)/Rx
Proventil (albuterol)	inhaler	Yes, generic; No, brand	2 inhalers/Rx
Proventil HFA (albuterol sulfate)	inhaler	No	2 inhalers/Rx

BRAND NAME (GENERIC NAME)	DOSAGE FORM	FORMULARY	DISPENSING LIMIT
Prozac Weekly (fluoxetine)	caps	No	8 caps/30 days
Pulmicort Flexhaler (budesonide)	inhaler	Yes	1 package/Rx
Pulmicort Respules (budesonide)	neb susp	Yes	3 packages (180 mL)/Rx
Qvar (beclomethasone)	inhaler	Yes	2 inhalers/Rx
Relenza (zanamivir)	inhaler	No	1 inhaler (20 doses)/Rx
Relpax (eletriptan)	tabs	No	6 tabs/Rx
Repronex (menotropins)	inj	Yes	60 vials/Rx
Retin-A (tretinoin)	crm, gel, soln	Yes, generic; No, brand	Under age 40
Retin-A Micro (tretinoin microsphere)	gel	No	Under age 40
Rhinocort Aqua (budesonide)	nasal	No	1 inhaler/Rx
Rozerem (ramelteon)	tabs	No	1 tablet/day
Serevent Diskus (salmeterol)	inhaler	Yes	1 package (60 doses)/Rx
Sonata (zaleplon)	tabs	No	1 tablet/day
Spiriva Handihaler (tiotropium bromide)	inhaler	Yes	1 package (30 doses)/Rx
Tamiflu (oseltamivir)	caps	Yes	10 caps/Rx
Tamiflu (oseltamivir)	oral susp	Yes	3 bottles (75 mL)/Rx
Tilade (nedocromil sodium)	inhaler	Yes	2 inhalers/Rx
Ultram (tramadol)	tabs	Yes, generic; No, brand	8 tabs/day
Ultram ER (tramadol ext-release)	tabs	No	1 tablet/day
Ventolin HFA (albuterol sulfate)	inhaler	No	2 inhalers/Rx
Viagra (sildenafil)	tabs	Yes	8 tabs/30 days, males only
Xopenex HFA (levalbuterol)	inhaler	Yes	2 inhalers/Rx
Zofran (ondansetron)	oral soln	Yes, generic; No, brand	90 mL/Rx
Zofran/Zofran ODT 4 mg, 8 mg (ondansetron)	tabs	Yes, generic; No, brand	10 tabs/Rx
Zomig (zolmitriptan)	nasal	Yes	1 bottle (6 spray units)/Rx
Zomig/Zomig ZMT (zolmitriptan)	tabs	Yes	6 tabs/Rx
Zyvox (linezolid)	oral susp	Yes	600 mL/Rx
Zyvox (linezolid)	tabs	Yes	28 tabs/30 days
